A romantic scene of a couple in a forest at night. A man with dark hair and a woman with blonde hair are shown from behind, embracing. They are standing in front of a large, bare tree. In the background, there is a full moon and some distant lights.

## Spring Wind bringing the Tide of Flowers - Part C

Spring Wind-Spring is here at last.

Spring of Rainy-good weather.

Ko Shoo Po comes the wind-a messenger bringing goodness.

### Summary

Gouen Shoo and Hachiko were lovers during high school until Shoo unapologetically decides to go to a different college. Years later, the Head of the Kusunagi Family, Grandmother Mokko, calls them back home. Gouen was on tour, and Shoo and Hachiko are the only ones home left that can do the job. The prospective mother Mokko has been chosen now to decide who the father will be. In the end, however, Mokko chooses to follow her heart and chooses with her loves the classifier.

Years later the Kusunagi Family is still looking for an heir. Kusunagi has found Atsumi's only son, Asato, and brings him back to the Kusunagi Family to fill the position. But at the same time, Shoo has the other possible love, Gouen Shoochii's son, Ryosuke. While the Kusunagi Family can choose who will be the next successor, Kusunagi and Ryosuke have other plans for the Kusunagi family.

In an attempt to bring Mokko back to the Kusunagi family, the Head of the Family discards Mokko's husband and his ability to support his family. In their absence both Mokko and her husband died, leaving Kusunagi alone and with a step child for the Kusunagi family. Now, presented with the opportunity to become Head of the Kusunagi family, Kusunagi wants everything he has, including his body, to find a way to deserve this family. Meanwhile, Shoo and Hachiko try to keep the prospective three of the classifier, while their Grandmother is at the deepest in a coma. So many secrets remain hidden, and no one knows them all.

## *Howl Over the Vector - Chapter 4* *A lonely road and a cushion for Shou and Hach.*

### *Summary*

The Kuroki family is looking for their Coarse and Town. Shou and Hach are possible candidates but when the prospective mother Miyako runs off with the other side of her heart forgotten. Nearly year later, the need for an heir is once again brought up and two new possible candidates are brought to the dump - Ryoma (son of Shouko who left the family many years ago) and Rumi (son of Miyako who recently died). Both new candidates have their own place for the Kuroki family and dark presents could be considered if the Kuroki family wishes to pursue. As the story ends, it really goes back to the beginning with the Kuroki family still looking for an heir and Shou and Hach to lead in the impossible production of an heir.

They did the same.

## Afterword from \*Us\*!

### KASHINOSHI [translator]

The reading material for this one got me for a week. Ask me anything, I can explain the winds, and cyclones as well as mobility in forests. ~laugh~ The last reading, sobbed ^-^ It was touching and the emotional impact was great. This was tough, with all the long fics [apologies, FeydR] and to a certain point, I felt like writing a play and almost wanted to burn the book. Ho ho --- Nevertheless, I know you enjoyed the extraordinary and awesome work of Tateno-sensei, thank you~

### FUJI CHAN [illustrator]

Well! My first coloring-project here is released! I finally knew what's going on while I was coloring it. I was wondering about stuff like: Why this girl is holding her with anyone? And if the only "girl" of the story was actually though [which wasn't true, I guess XD]. Because, too many colorless/manga[!] colored life is problematical reasons. After this has been done, I realized o.o, that my imagination went 10.000% and created my own plot! So, enjoy it!!

### AYANO [editor]

I'm done, really o.o? I can't believe it... >\_> No more KBB "o", no more this and that, no more bubbles that had to be made because the fist was too long... Well, if you like the manga, I hope you'll appreciate my setting [because I worked very hard on it, so please :], why they only speak and speak and they don't do much/much scenes? I think mostly just on doing in small bubbles >D

### CYGNUS [graphics]

This is my first fullgraphics-project for A\*, and as a test task, they gave me a lovely manga by my one of most love mangaka Makoto Tateno, so I poured all my heart into them. As for the story itself, like all her other works, its touching, and full of sweet sweet scenes that I like sooooo much!!! ^P
